TARTER®

FARM AND RANCH EQUIPMENT

The Tarter family has been manufacturing quality, American made products for farmers and ranchers for generations. Our great-grandfather, C.V. Tarter, started the company over seventy years ago, crafting wooden farm gates by hand. Today, we're the largest manufacturer of farm gates and animal management equipment in North America, with 1400 employees and over a million square feet of production facilities in two states. Our family-run business remains committed to creating quality products for your farm or ranch.

IMPROVING LIFE ON YOUR LAND

"TARTER GATES ARE OUTSTANDING IN QUALITY AND DURABILITY WHILE BEING REASONABLY PRICED..."
- Lyn Wills

GATES

PANELS

& WALK-THRUS

Find the right gate, built to last. The Tarter family has been perfecting gates since 1945.

THE TARTER LINE OF GATES, PANELS, AND WALK-THRUS OFFER A COMPREHENSIVE SOLUTION TO EVERY SITUATION ON THE FARM

BULLMAX SERIES

Designed to withstand the pressure of the toughest high-stress situations. Products in this series feature heavy-duty 2" steel tubing for maximum strength and durability.

GREAT FOR:

Heavy confinement, commercial use, large animals, large herds

STEELMAX SERIES

Designed for general livestock applications, these products feature 1¾" steel tubing with extra bracing - adding strength and durability.

GREAT FOR:

Medium-light confinement, average herds, mixed herds

WATCHMAN SERIES

Designed for small animal and equine applications, products in this line feature durable 1¾" steel tubing and wire-filled construction.

GREAT FOR:

Light confinement, small herds, horses, and smaller animals

AMERICAN SERIES

The cost-effective products in this series feature 1¾" steel tubing and are perfect for entrances to pastures, low-pressure environments and light-duty confinement.

GREAT FOR:

Field & pasture entrances, light confinement, temporary applications

NOTE: Special lead time may apply to some products

BULLMAX XD SQUARE CORNER GATE

2" SUPER-DUTY GATE

TALL & STRONG: 2" round high-tensile strength steel that stands 62" tall and laser-cut bracing to accommodate the largest animals.

SAFE & SECURE: No sharp edges for animal and handler safety. Super-duty hinges and welded chain latches for reliable animal enclosure.

BUILT TO LAST: Powder-coated finish and welded corners keep moisture at bay, preventing rust.

HEAVY CONFINEMENT

BROWN ITEM #	GREEN ITEM #	BRACES	HEIGHT	LENGTH	APPROX. WEIGHT
2SCGBR4	2SCGG4	0	62"	4'	43 lbs
2SCGBR10	2SCGG10	1	62"	10'	99 lbs

2SCGBR16	2SCGG16	3	62"	16'	152 lbs
2SCGBR18*	2SCGG18*	3	62"	18'	194 lbs
2SCGBR20*	2SCGG20*	3	62"	20'	213 lbs

All 2" tube gates are 2½" shorter than listed length to allow for hardware and proper clearance.
NOTE: Special lead time may apply to some products

**Built-to-order product requiring additional lead time*

BULLMAX HD ROUND CORNER GATE

EXTRA HEAVY-DUTY 2" GATE WITH COLLARED HINGE

STRONG & STURDY: Vertical Z-braces and 2" tubing provide added strength and durability.

EASY INSTALLATION: Comes with heavy-duty collared hinges, snap chain and welded chain latch.

LOW MAINTENANCE DURABILITY: Our innovative finish helps keep rust at bay and protects your investment for years to come.

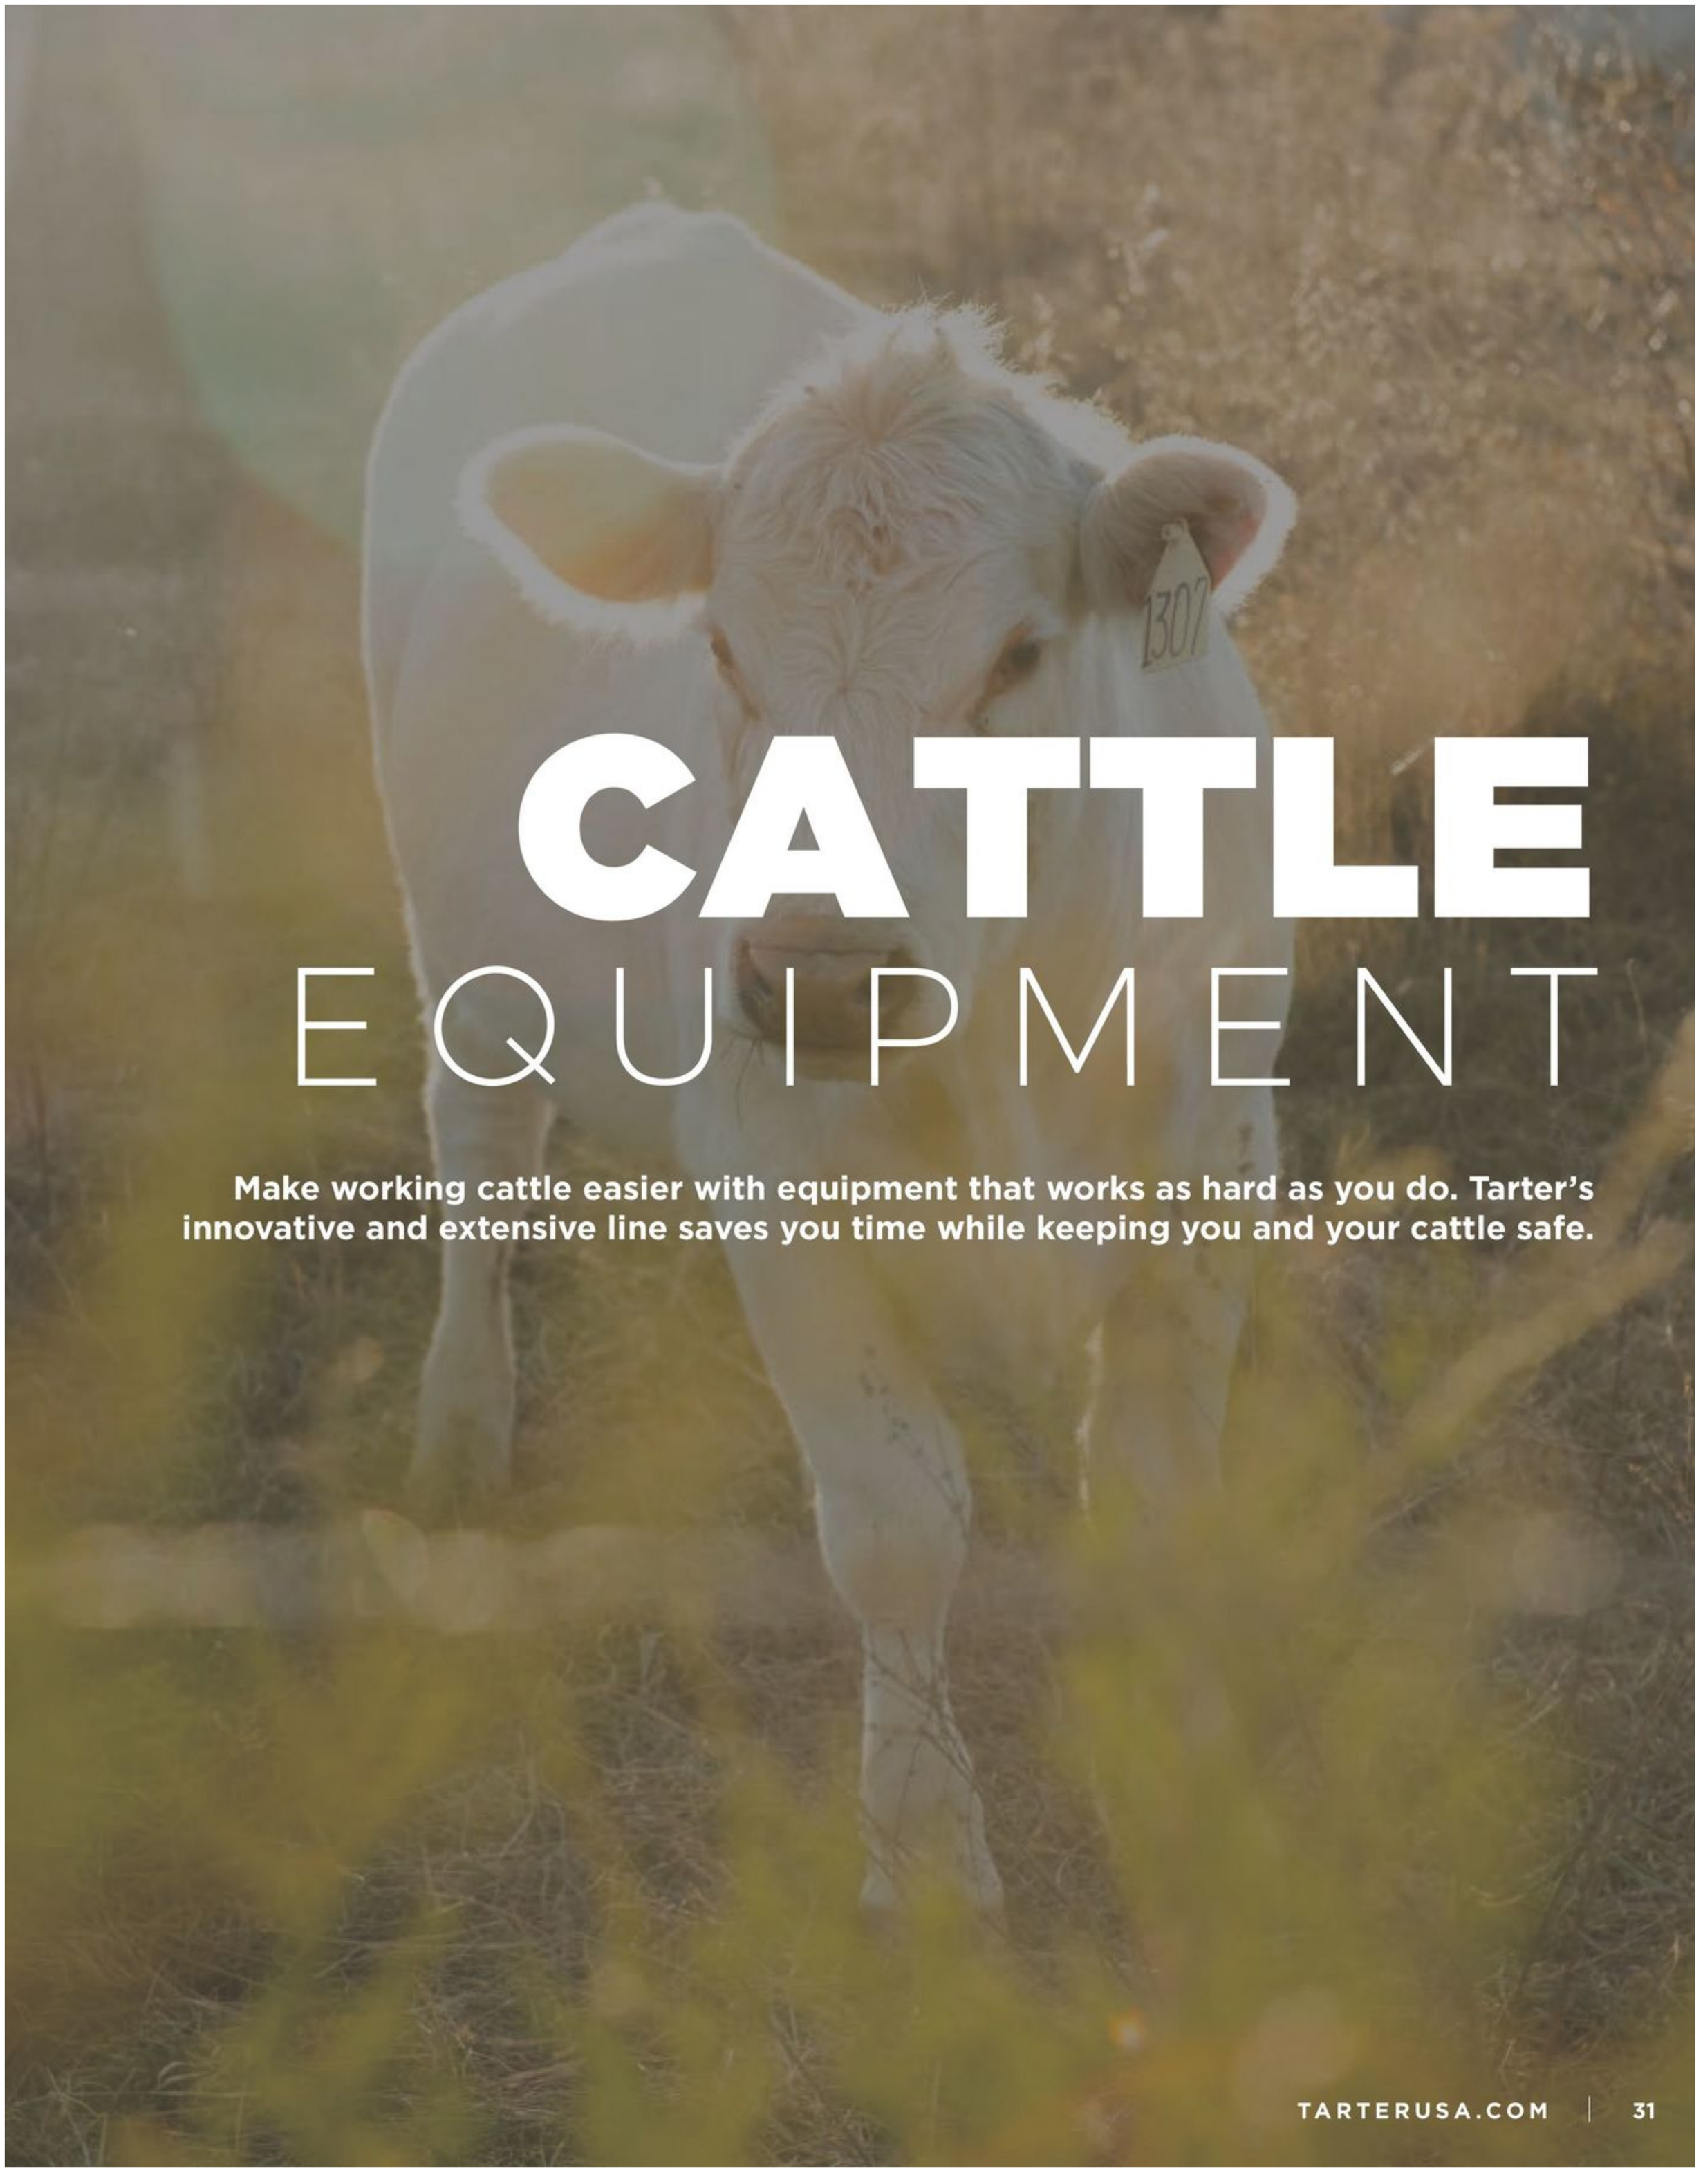
- Tom Walls



CATTLE EQUIPMENT

Make working cattle easier with equipment that works as hard as you do. Tarter's innovative and extensive line saves you time while keeping you and your cattle safe.

TARTER'S CATTLEMASTER LINE OF SQUEEZE CHUTES PROVIDES YOU THE SAFEST, QUICKEST AND MOST CONSISTENT WAY TO WORK CATTLE.

THE HYDRAULIC CHUTE

Engineered with safety and convenience in mind for cattle operations that want the ease of hydraulics.

CATTLEMASTER SERIES 9

Great for Seedstock, Backgrounding, Feed lot, and other large operations working more than 50 cattle.

CATTLEMASTER SERIES 6

The perfect choice for cow-calf operators and mid-sized operations working 25-50 cattle.

CATTLEMASTER SERIES 3

The right fit if you have yearlings, small cows, and operations handling up to 25 cattle.

BIG ON FEATURES

No matter what size operation you have, the Cattlemaster line is the perfect solution for your herd.

"TARTER'S HYDRAULIC CHUTE HAS CUT OUR TIME WORKING CATTLE IN HALF."

- Toby Jordan
Wakaru Farms, IN

CATTLEMASTER HYDRAULIC CHUTE

UNIQUELY DESIGNED AND ENGINEERED TO BOOST PRODUCTIVITY. THIS CHUTE MAKES IT EASIER ON YOU BY DOING ALL THE HEAVY LIFTING.

Tarter's Hydraulic Chute is built with high-quality powder coated steel, engineered to give you maximum control, and designed to reduce pressure points on livestock for safe, easy low-stress cattle handling. The headgate, squeeze function, and rear gate are all hydraulic and controlled from one spot. You'll like the hinged, removable side access and bottom panels so livestock access is quick and safe. Getting started with this chute is simple, find a 110-volt power source or 4,000 watt generator with a 30 amp breaker and you're good to go. Tarter's Hydraulic Chute is perfect for high volume cattle operations that want the ease of hydraulics and the benefits it brings.

CATTLEMASTER SWEEP SYSTEMS

UNIQUELY DESIGNED AND ENGINEERED TO BOOST PRODUCTIVITY WHILE MAXIMIZING SAFETY AND EFFICIENCY. BOTH THE OPEN AND SHEETED OPTIONS PROVIDE A HEAVY-DUTY SOLUTION TO MAKE WORKING CATTLE FAST, SAFE, AND STRESS-FREE.

Getting livestock to your squeeze chute with the least amount of stress possible makes a big impact on profits, and safety. Tarter's Sweep Systems provide a low-stress environment which can mean improved weight gain for livestock and better chances of fighting off disease. Each system is built "Tarter Tough" with heavy-duty, high-quality powder-coated steel and can be configured to fit your needs. This setup connects seamlessly to Tarter's line of squeeze chutes and can be customized with options like a Palpation Cage and Sliding Alley Cut Gate. Tarter's Sweep Systems come complete with a 20' alley and your choice of a 180° or 120° sweep tub - A smart investment that will maximize productivity and profits for years to come.

MATERNITY PEN

THE SAFEST PLACE FOR YOU AND YOUR LIVESTOCK DURING THE CALVING SEASON

HALF-CIRCLE PEN: Swiftly move cattle to the headgate with no corners to hide in for stressed livestock.

SWEEP GATE: Allows handler to secure livestock in headgate while preventing them from pushing against the operator.

AUTO HEADGATE: Self-catches so you can safely stay outside of the pen.

EZ ACCESS: Split side panels offer top and bottom doors for convenient access.

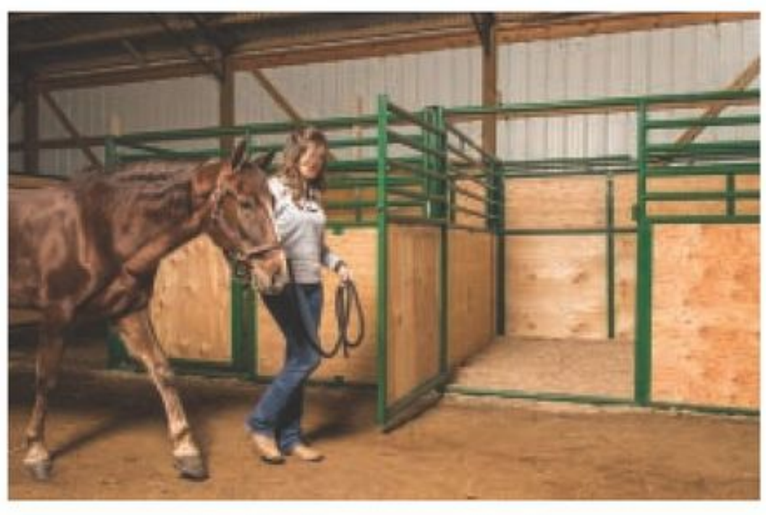
EXPO HORSE STALL

STALL ON THE GO: Need stalls for the fair or show grounds? The Expo Horse Stall is the perfect, heavy-duty solution and assembles in minutes.

STURDY & RELIABLE: Included ½" plywood filler panels means these stalls are built for the pressure. Upgrade your stalls with up to ¾" filler material such as PVC puckboard for added strength and durability. The powder coat finish resists corrosion.

CONFIGURE FOR YOUR NEEDS: At 7' tall, these stalls can be used in clear-span or post-frame construction as well as outdoor tents. Simple to use stall brackets make setup easy. Heavy-duty drop pin hardware is also available as an optional upgrade.



**Built-to-order product requiring additional lead time*

ARENA

PANELS, WALK, RIDE, & DRIVE-THRUS

Tarter's line of arena products offers nearly endless options for your arena and event setups. Our comprehensive solutions provide superior durability and flexibility.

MULTI-PURPOSE PANEL: With 6'-16' widths and 5' or 6' heights, this panel has maximum versatility and can be used for roping arenas, events, and cattle handling setups.

STRONG & STURDY: Heavy gauge construction and precision laser-cut braces; along with heavy-duty connections for superior strength.

SAFETY FIRST: Features straight end posts with closed tops for animal and handler safety.

See more on pg. 213

CORRAL PEN
CALCULATOR

1. To find the number of panels needed, multiply the desired diameter (straight line passing through the center of the circle) by 3.14. This will determine the circumference (the distance around the circle).
2. Divide the circumference by the length of panels being used. This will equal the number of panels needed.

PANEL LENGTH	DIAMETER OF HOLDING AREA (FEET)																
	20′	25′	30′	35′	40′	45′	50′	55′	60′	65′	70′	75′	80′	85′	90′	95′	100′
10′	6	8	9	11	13	14	16	17	19	20	22	24	25	27	28	30	31
12′	5	7	8	9	10	12	13	14	15	16	18	20	21	22	24	25	26
16′	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20

NOTE: Sizes of pens are approximate. Pen sizes will vary depending on the size of the Walk-Thru Arch Gate used. Walk-Thru Arch Gates are available in 6' lengths only for horse corral panels. We also have available a 6' panel welded to a 6' arched gate which makes for a more rigid entry into the corral or for building 12' x 12' square corrals with individual openings.

Our product specialists are ready to discuss the unique needs of your next arena or event setup. Give us a call today at 1 800-REDGATE.

ARENA WORKER

THE QUICK AND EASY WAY TO PREP AND CONDITION YOUR EVENT SPACE

KENNELS
& ACCESSORIES
Keep your pet safe, secure, and comfortable with Tarter's line of dog kennels.
We only use high-quality, American-made steel for a lifetime of reliability.

WHAT KENNEL DO I NEED?

CHOOSING A KENNEL FOR YOUR FURRY FRIENDS CAN BE DIFFICULT. LET US HELP YOU MAKE THE BEST DECISION FOR YOUR PETS.

THE ELITE

There's a reason we named it that... only the best will do for your pets! That's why we started with thick steel tubing and heavy gauge wire, then galvanized it to protect against rust and waste. We even took it one step further and used our patented powder-over-e-coat finish on the entire panel for exceptional durability. That is what makes this
THE STRONGEST KENNEL IN AMERICA.

THE BLUE CHAMPION

Perfect for medium breeds, this kennel still offers great durability and is light weight for portability. Optional extra panels make it easy to construct the perfect kennel for your pet
AMERICA'S WINNING CHOICE.

GALVANIZED CHAIN LINK KENNEL

An affordable solution for all your pets. This simple, easy-to-use kennel can be assembled in minutes. You can even use this as a temporary solution for small animals.

BIG ON FEATURES

Choose from the most feature-packed options on the market. Our kennels are the ideal solution for comfort and safety of your pets.

THE STRONGEST KENNEL IN AMERICA

THE ELITE KENNEL

WE KNOW YOUR PETS ARE FAMILY. THAT'S WHY WE DESIGNED OUR ELITE KENNEL WITH THE STRONGEST MATERIALS AND DEVELOPED A PATENTED FINISH FOR SUPERIOR SAFETY AND DURABILITY.

When you want the best outdoor solution for keeping your dogs, chickens, or even your bunnies safe and secure from predators, Tarter's Elite Dog Kennel is your choice. One customer sent us a letter and told us the Elite Dog Kennel saved her dogs life. A Texas non-profit group that trains service dogs to help veterans relies on our kennels to keep their canines safe and secure.

We know you want your kennel to look great and last a long time, so we galvanized our steel and gave it a powder-coat finish. That will guard against corrosion from harsh chemicals or the gnawing of sharp teeth.

When you're ready to expand, Tarter makes it easy. Just add on with five and ten foot side panels, an optional two-door front panel, and even a shade cover for additional comfort and protection. All panels come with heavy-duty top and bottom kennel clamps, making it simple to give your animals room to roam. Our lockable two-way latches are animal proof, yet make it a breeze for you to enter and exit.

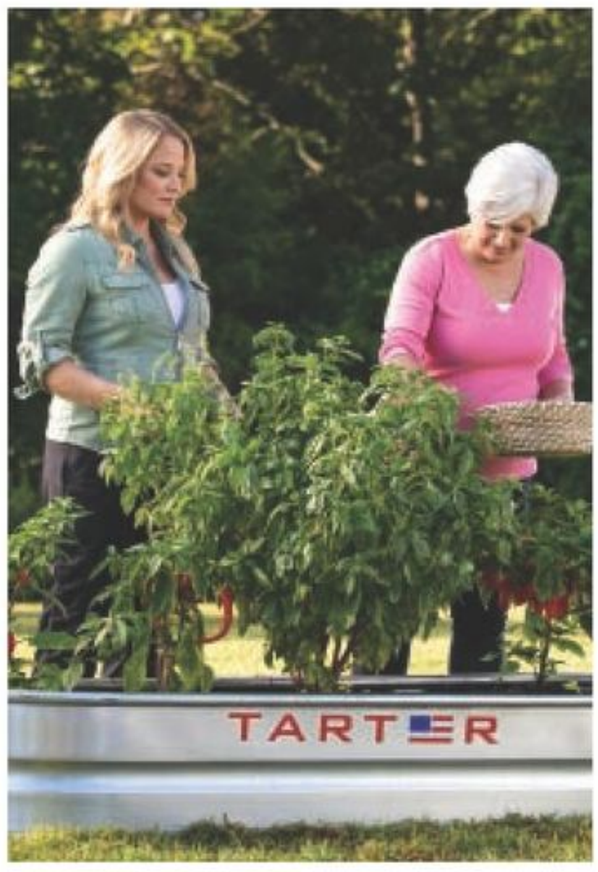
RAISED BED PLANTERS

EASY SETUP: Create a garden in minutes with no assembly or tools required.
LIGHTWEIGHT AND DURABLE: Lasts longer than wooden planters.
MULTIPLIES YOUR HARVEST: Produces twice the vegetables in half the time.
SAFETY FIRST: Galvanized steel and rounded edges ensure safety for all plants, soil, pets, and people.



Whether you're in the country or the city, let Tarter help you show off your green thumb with our raised bed planters. Perfect for edibles and ornamentals, these planters produce twice the amount per square foot than traditional gardens. And with Tarter's raised bed planters, you can often plant earlier and harvest later to extend the growing season. Create an instant garden anywhere - just add soil and seeds - you're good to grow!

"WHEN WE FIRST STARTED OUR SMALL FARM, OUR FIRST PURCHASE WAS OUR TARTER STOCK TANK. IT HAS SERVED MANY PURPOSES; FROM A BROODER FOR OUR FIRST CHICKS, TO NOW A WATER SOURCE FOR OUR DONKEYS AND GOATS. THE QUALITY AND DURABILITY OF THE STOCK TANK HAS LED US TO TURN TO TARTER AGAIN AND AGAIN AS WE GROW OUR FARM."

- Savanna McMichael

FRONT ATTACH IMPLEMENTS

Turn your productivity up a few notches with these additions to your tractor. Move hay bales, clean up debris, or even plow snow. Tarter's Front Attach Implements save you time.

"I REALLY LIKE HOW TOUGH THE FORKS ARE AND DON'T BEND, IT'S ALSO REALLY EASY TO ADJUST AND ATTACH TO THE TRACTOR! IT'S A ONE MAN JOB!"

- Jordon Withers
T&B Drilling INC, KY

PALLET FORK

THIS PRO-LEVEL ATTACHMENT FROM TARTER IS ONE OF THE TOUGHEST IN IT'S CLASS.

TARTER TOUGH | **ADJUSTABLE** | **VERSATILE** | **READY TO WORK**

If you are looking for a great all-around tool for your homestead, look no further than Tarter's Pallet Fork. Simply attach this implement to the front of your machine and start working. Great for moving pallets of feed, unloading equipment from taller trailers, and other heavy lifting tasks - this implement will get the job done. Heavy-duty steel is laser cut while robotic assisted welders assemble the unit; providing unparalleled precision and accuracy. The tines are heavy-duty and heat treated for superior strength and durability. This do-it-all implement is the perfect companion to your loader-equipped tractor.

UNIVERSAL: Compatible with most quick-attach loaders.

FULLY ADJUSTABLE: Spring-loaded latches allow fork spacing from 0-37".

HEAVY LIFTER: Replaceable ITA style heat-treated forks provide a maximum lift capacity of 3000 lbs.*

ROTARY TILLERS

STIR IT UP: If you have gardening or food plot projects, this tiller easily cultivates, aerates and stirs up the soil to prep your land properly for seed or planting.

DIG DEEP: Our adjustable runners till up to 7" in depth after multiple passes and the reverse rotation option breaks up the toughest ground. Self sharpening heat-treated cutting tines are long lasting and powerful.

SMART DESIGN: With a heavy-duty slip clutch, there's less worry about damaging the PTO in case the implement jams on a rock or foreign object.

BUILT TO LAST: The powder coat finish helps prevent corrosion so your implement will last for years.

The David Key Arena was designed by David Key himself. This arena is a collection of features and ideas that he liked from all of the arenas he has roped in throughout his career. This arena will reduce wasted down time and allows the roper to manage all aspects of the arena from horseback.

Tarter Farm and Ranch Equipment offers a large variety of solutions to meet your rodeo arena equipment needs. Contact your TARTER representative to discuss available options.

BULLMAX XD SQUARE CORNER GATE

2" SUPER-DUTY GATE

TALL & STRONG: 2" round high-tensile strength steel that stands 62" tall and laser-cut bracing to accommodate the largest animals.

SAFE & SECURE: No sharp edges for animal and handler safety. Super-duty hinges and welded chain latches for reliable animal enclosure.

BUILT TO LAST: Powder-coated finish and welded corners keep moisture at bay, preventing rust.

HEAVY CONFINEMENT

BROWN ITEM #	GREEN ITEM #	BRACES	HEIGHT	LENGTH	APPROX. WEIGHT
2SCGBR4	2SCGG4	0	62"	4'	43 lbs
2SCGBR10	2SCGG10	1	62"	10'	99 lbs
2SCGBR12	2SCGG12	2	62"	12'	117 lbs
2SCGBR16	2SCGG16	3	62"	16'	152 lbs
2SCGBR18*	2SCGG18*	3	62"	18'	194 lbs
2SCGBR20*	2SCGG20*	3	62"	20'	213 lbs

All 2" tube gates are 2½" shorter than listed length to allow for hardware and proper clearance.
NOTE: Special lead time may apply to some products

**Built-to-order product requiring additional lead time*

STEELMAX SQUARE CORNER GATE

SQUARE CORNER GATE

MED-LIGHT CONFINEMENT

DOUBLE DUTY: Large enough and strong enough to be used for livestock confinement or as a pasture entrance.

TARTER TOUGH: Built to last with 1¾" tubing, saddle welded square corners and laser-cut braces.

LOW MAINTENANCE DURABILITY: This gate features a powder coat finish that resists rust, making your investment safe for years to come.

ADJUSTABLE AND SECURE: Bolt-on hinges and chain latch provide reliable enclosure.

ITEM #	BRACES	HEIGHT	LENGTH	APPROX. WEIGHT
SCGBR6	0	51"	6'	50 lbs
SCGBR8	0	51"	8'	64 lbs
SCGBR10	1	51"	10'	74 lbs
SCGBR12	1	51"	12'	96 lbs
SCGBR14	1	51"	14'	112 lbs
SCGBR16	2	51"	16'	125 lbs

1¾" tube gates are 3" shorter than listed length to allow for hardware and proper clearance.

NOTE: Special lead time may apply to some products

ARENA WORKER

THE QUICK AND EASY WAY TO PREP AND CONDITION YOUR EVENT SPACE

A MUST HAVE: Use on any competition or personal arena to provide a secure footing to reduce injuries and boost performance.

BREAK IT DOWN: Adjustable S-tines rip through soil; breaking down hard clumps with ease.

SMOOTH FINISH: Rear roller bar and drag blade provide a superior finished surface - perfect for nearly any event.

BUILT TARTER TOUGH: Heavy gauge steel frame and powder-coat finish for years of low-maintenance use.

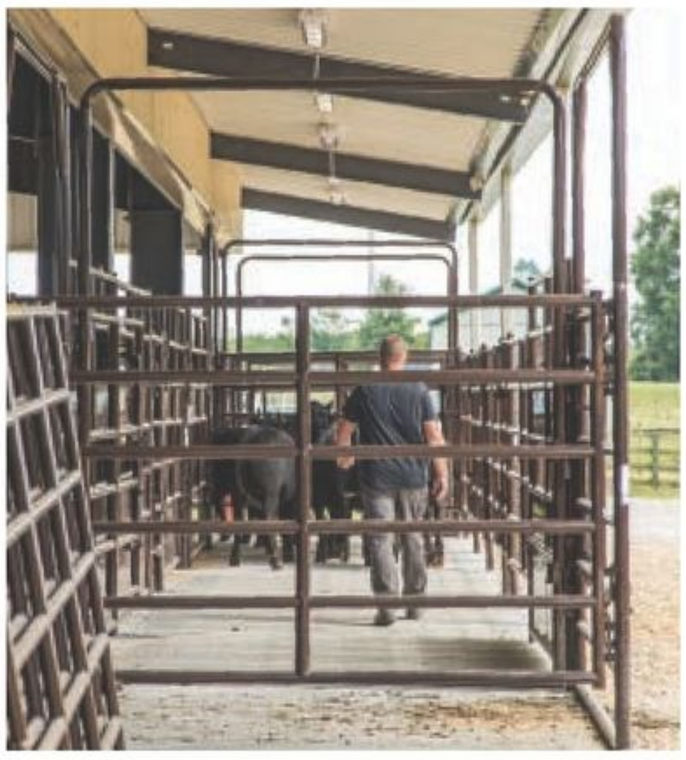
CUSTOM
MANUFACTURING
With industry-leading processes, innovative fabrication techniques, and cutting edge technologies; Tarter Farm & Ranch Equipment has the capability to make the facilities of your dreams a reality.

CASE STUDY

OLDE DOMINION
AGRICULTURAL COMPLEX, VA

Founded in 2008 by a group of local farmers and visionaries; The *Olde Dominion Agriculture Foundation* is a regional organization with a mission to promote and support the growth of agriculture in regional communities.

This complex has been constructed in anticipation of providing a well-maintained, community-based facility for a variety of events, as well as a tool for education and agriculture preservation.



The Olde Dominion Agriculture Foundation first approached Tarter in search of a way to integrate their existing infrastructure to the Tarter ecosystem of panels, components and accessories. Allowing them to not only expand their current system, but also retain the flexibility of utilizing components already in place.

By developing and fabricating a custom attachment solution, Tarter was able to equip existing hardware of the complex to accept Tarter components. This allowed them the flexibility to add to or reconfigure the facility as the need arises. With the variety of products available, Tarter is sure to have an answer for every situation. This partnership has allowed them to develop a solution that works best for them; maximizing their investment and providing a top-quality product.

"The Olde Dominion Agriculture Complex and Tarter partnered together to fully equip our cattle show barn and our co-mingling sale barn. We are grateful to Tarter for all of their hard work in customizing their product to our need. We hope to partner with Tarter in the future on all of our expansions into equestrian stalling as well as other livestock shows and sales."

- John Harris
ODAC

No matter what size project you plan on completing; Tarter Farm & Ranch has the manufacturing capabilities to make your dreams a reality. Pair that with our first-class design expertise and unparalleled customer service for a stress-free project experience from concept to completion.

CASE STUDY

BLUEGRASS
STOCKYARDS LEXINGTON, KY

When we were planning the new stockyards in Lexington we had several considerations when it came to sourcing materials. We needed to get our business back up and running as quickly as possible after the devastating fire at our old facility but we didn't want to compromise on the quality to do that. We knew that there was only one company around that could understand what we needed and why we needed to operate that way. When we sat down with the Tarter team; everybody shared ideas on design and materials to allow both of us to achieve our goals in the project. Being fellow cattlemen we were totally comfortable that they understood our challenges and needs. We also knew from experience that whatever they promised us would be delivered exactly that way.

Since our barn is an all pipe pen facility we were able to plan and design on a grid system that allowed Tarter to roll, precut and cope our fence tubing. It arrived on site and could be quickly dropped and welded in place. Tarter was tremendous to work with in terms of staging the product delivery and keeping us about a week ahead on inventory. All of the pen fence in the 192,000 square foot barn was built in less than 5 months from setting the first post to hanging the last gate.

CUSTOM MANUFACTURING

Our gates are all custom made by Tarter, we started this over 10 years ago and have built 4 barns using them. These gates are considerably heavier than anything you can buy on the open market but they stand up to the constant use, pressure from livestock and cleaning equipment. Over the years we have tweaked our materials to make the gates durable but no heavier than they have to be and Tarter has provided valuable advice toward that goal. The latch system on the gates is also unique to Blue Grass and is another piece that we have worked closely with Tarter staff to improve and perfect over several years. The latch system allows for easy operation from the ground or horse back. The final piece of our gate system is also unique and is something that has evolved working with Tarter over the years. Tarter fabricates our gate hangers from raw steel. Building on knowledge gained from several years of use in our other facilities we made a key change in our hanging system that has proven to be one that will extend the life of our gates and improve their operation. We added a bushing welded on to the lower gate hanger that gives the gate a smooth, level service to ride on. This reduces the wear and tear on the gate hinges and allows the gate to swing more freely and easily.

"Building our new facility was a fast paced project by necessity. It was a pleasure to work with the Tarter team on the materials, they never let us down and kept us on schedule throughout the project."

- Jim Akers
COO BlueGrass Stockyards

CASE STUDY

CENTRAL KY
AG & EXPO CENTER

This 160 acre site rests in the serene beauty of Casey County, KY and boasts state-of-the-art amenities for producers and showmen alike. With 2 livestock barns outfitted with over 300 stalls and over 70,000 square feet of event space, the Ag & Expo Center needed a flexible, reliable, comprehensive solution for animal confinement and containment.

A combination of heavy gauge panels and components from their neighbors at Tarter provided a simple, easy to use system that can be utilized in a variety of ways to meet the needs of various events.

CASE STUDY

CENTRAL STATES FAIR

BLACK HILLS NORTH DAKOTA STOCK SHOW & RODEO

"We operate a very active fairgrounds in South Dakota. We host thousands of horses each year at our facilities. A few years ago, we enclosed our stall barns and added LED lighting. The only thing missing to complete the upgrade of our stall barns was good, quality stalls. We partnered with Tarter to put in new stalls.

Our experience with these stalls and the Tarter team was excellent. The stalls are holding up nicely. They are sturdy and rust free and operate perfectly. We chose the wood paneled Expo Horse Stalls and could not be happier with the way they went together and the new, clean look it gave our barns. Our customers like them too. We would recommend to anyone thinking about remodeling or building new horse facilities to talk to the fine folks at Tarter and see what they can do for you. You won't be sorry you did."

- Ron Jeffries
General Manager

CASE STUDY

PARK CO. FAIR

POWELL, WYOMING

Every year the Park County Fair celebrates Wyoming's farming and agricultural past. With events and attractions for all ages, the fair supports local showmen and women with updated facilities and amenities that provide a safe and secure place to board their prize winning animals. Utilizing Tarter Small Animal Expo Stalls has allowed them to create a customized solution for their existing structures.

CASE STUDY

SISSETON WAPHETON COLLEGE

SISSETON, SOUTH DAKOTA

"We put in a full rodeo arena package from Tarter for our college rodeo team and we really like it! It has made my job coaching much easier, everything works good and is easy to operate which makes practice go much smoother and my students were able to get more out of each practice. From the roping chute to the bucking chutes and lead ups. It all went together really nice and was easy to set up. The chutes all open and close really nice and the whole arena is very usable. It is one of the nicest arenas I have ever seen! I would recommend the Tarter arenas to everyone!"

- Emit Valnes
SWC Rodeo Coach
